

HAIKAL HAKAM

WEB DEVELOPER | BACKEND | FRONTEND

Sukabumi, West Java, Indonesia | haikalhakam13@gmail.com | <https://linkedin.com/in/haikalhakam>

ABOUT ME

A results-oriented Fullstack Developer and Software Engineering graduate currently advancing technical expertise at PeTIK. Specializing in the modern JavaScript ecosystem, I focus on building dynamic user interfaces with React.js and developing scalable backend architectures using Node.js and Express. I leverage my proficiency in visual design via Canva alongside a solid technical foundation to deliver aesthetic, responsive, and high-performance digital products.

AREAS OF EXPERTISE

- Proficient in building and managing RESTful APIs using Node.js and Express.js.
- Specialized in creating responsive, modern interfaces with Tailwind CSS and Bootstrap.
- Experienced in MySQL database integration and manipulation via JavaScript.
- Efficient source code management and team collaboration using GitHub.
- Creating professional visual assets via Canva with a technical aesthetic approach.
- Experienced in managing and integrating MySQL databases using PHP.

EDUCATION
